

Ingrid Ritt

- Chairwoman 3x MEHR – differentiated school system initiative
- Board member of the educational alliance of medium-sized companies
- Honorary chairwoman of the Bavarian State Parent Association of secondary schools
- Head of the office of the Bavarian Value Alliance Foundation

Honours:

- Cross of the Order of Merit of the Federal Republic of Germany
- Silver Medal of the Bavarian Constitution
- Bavarian Order of Merit

Status Quo

- Funding programme centers of excellence in vocational education and training in Bavaria
 - Previous program „Industry 4.0“
 - Funding program „Budget for integrated specialist rooms at vocational schools“
-

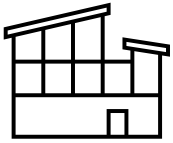

Concept Climate School - vocational school Mindelheim

In cooperation with other schools worldwide:

- St. Thereza Vocational College in Zigoti, Uganda
- Vocational School Lycée des Métiers in Vedène, France
- Technical College Number 24 in Jaroslavl, Russia
- South Cheshire College in Crewe, England

Aims

- School buildings (building technology, energy level, school construction programmes)
- Education and training of teachers
- Sustainability/environmental officers at every center of excellence, at every school

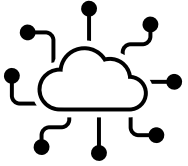

- Sustainability in quality management programs of the center of excellence, the vocational school
- Consideration in the context of the school evaluation

- Time allotments for the officers
- Expert positions at the governments/school authorities
- Sustainability-oriented efforts towards an international focus

Conclusion

- DIGITISATION is more than just technical equipment
- Digitisation is not an END IN ITSELF
- The political sector and responsible decision makers in education and training need to think

- in terms of SUSTAINABILITY
- Sustainability only makes sense when thought in GLOBAL terms
- VALUE TRAINING is indispensable

Ingrid Ritt

"How should regional digitally-supported and sustainability-oriented centers of excellence of vocational education be designed from the parents' perspective?"

Be motivated and let us together help to tackle our sustainability goals and digital transformation, and let us keep demanding for it everywhere.

THANK YOU
